Que : 5 What is affiliate Marketing?

Answer :

Affiliate marketing is a smart way to earn money online by promoting other people's or companies' products. When someone makes a purchase through your unique referral link, you earn a commission. It's a performance-based marketing strategy where businesses reward affiliates for driving traffic, leads, or sales.

This method helps companies increase their sales while allowing affiliates to earn income without creating their own products. By sharing links through websites, blogs, or social media, affiliates can build a steady source of passive income.
